

TIERX TOKEN WHITE PAPER

SOVEREIGN ECONOMIC ENGINE OF THE NEW ERA
Issued under the Authority of Sceptre Dominion Private Trust

1. Executive Summary

TierX (TierX) is the upgraded sovereign token built to power a decentralized, trust-backed economic system for sovereign nations starting with Ayiti (Haiti). Backed by a 100 billion supply, TierX integrates real-world liquidity, digital identity, and financial restoration through on-chain smart contract protocols.

2. Origin & Evolution

Tier originated as a yield-generating asset token. TierX evolves this mission — scaling up its liquidity base, integrating military-grade economic engines, and enabling real-time distribution of funds via mobile and on-chain mechanisms. TierX is the first 'DeFi stimulus-grade' token to fund insurance, food, housing, and land control in a live economic crisis zone.

3. Tokenomics

- Total Supply: 100,000,000,000 (100 Billion)
- Symbol: TIERX
- Decimals: 18
- Contract Owner: 0xbB80467caE0cFf80ec742860B813599BE97E9fBf
- Yield Rate: 3%/mo for 12 months, then scalable to 7%
- Vault Release: 100M every 30 days for 9 months
- Governance Ready: Roles for Admin, Minter, Pauser

4. 8 Engines of TierX

1. Deplete the Reserve – Swap loop engine to create rapid activity and double return cycles.
2. Crypto University – Learn-and-earn mechanism rewarding educational completion with TIERX.
3. Tokenize Everything – Real estate, vehicles, and physical assets placed under smart contracts.
4. Fracture – Time-lock reward engine rewarding long-term holding and anti-dump discipline.
5. Lottery Vault – Micro-entry vault with randomized draws and passive prize sharing.
6. Free Healthcare Engine – \$12/year onboarding campaign to pool healthcare treasury.
7. Stimulus Engine – Community-based airdrop stimulus from pooled liquidity.

8. Infinity Engine – The final vault: auto-yield mechanism offering compounding liquidity with 15-day cycles.

5. Real-World Integrations

- T-Rex Card (TierX Card): Swipe-enabled debit card linked to your TierX vaults. Slogan: 'Swipe it. Live Free.'
- HTGX Bridge: Pegged stable bridge for Haitian Gourde (HTG → HTGX → TierX → USDC → BTC).
- TrustVaults: All vaults are backed by the Sceptre Dominion Private Trust and governed by divine trust law.
- TierX Stipends: Tokenized real estate and vehicles offer monthly cash stipends to their original owners while the Trust uses the assets for yield.

6. Security Infrastructure

- Roles system deployed: DEFAULT_ADMIN, MINTER, PAUSER.
- Public vault address: 0xbB80467caE0cFf80ec742860B813599BE97E9fBf
- Gas-efficient ERC20 optimized for low-cost swaps
- 3-part backup system: On-chain roles + Ledger wallets + Offline paper key systems.

7. Vision Forward

TierX is more than a token — it's a living treasury for sovereign nations. Starting with Ayiti, it will fund insurance, rebuild homes, purchase food, back schools, and create a new global economy for the underserved. Phase II will deploy to Jamaica, West Africa, and the Diaspora. The goal: to place \$1 in every hand — backed by soul, not empire.
